

INSTALLATION FOR LEGACY PCSPRAY 2013

*Note users who are updating that have logos should see special instructions before installing

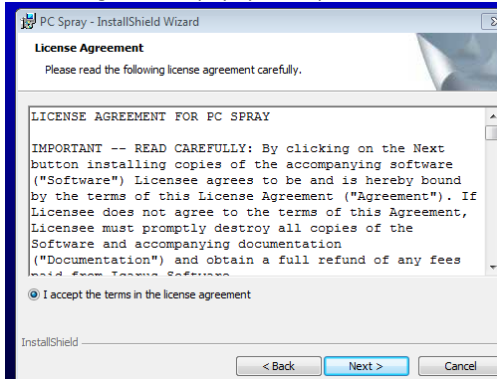

1. Copy install line into browser:
2. Setup.exe popup window will open: Click Save File.

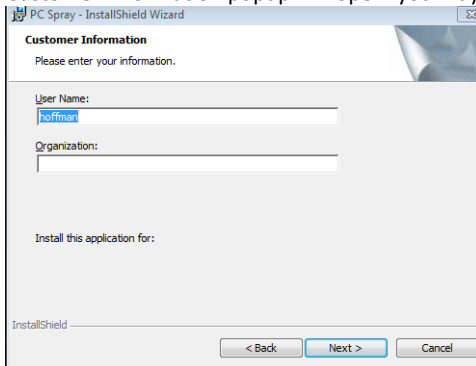

3. Setup.exe will download to your computer: Double click on setup.exe. This will briefly flash the install shield screen. Click Next.

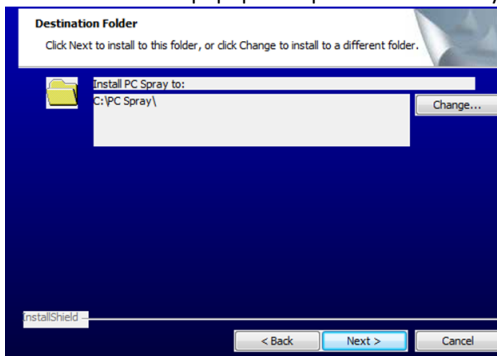

4. License Agreement popup will open: Click on I accept the terms and Next.

5. Customer Information popup will open: you may enter a User Name & Organization and Click Next.

6. Destination Folder popup will open: select where you want the program installed to and Click Next.

7. Program will ask if you are ready to install. Click Install. Installation will take several minutes.
8. On Windows latest versions, we advise running PCSpray in compatibility mode. Go to C:\PCSpray and right Click on PCSpray\Spray.exe & Properties. In the Spray.exe Properties popup, go to Compatibility tab & check Run this program in compatibility mode. Select version & ok.
9. Go to c:\PCSpray and highlight PCSpray.chm. Right click and select properties. There may be a message saying that this file is blocked for security purposes. Select unblock. This will allow the help file inside the program to be viewed.

Special Note to Existing PCSpray Legacy Users * who have logos

BEFORE installing new edition:

1. Go to C:\PCSpray\Reports and select the following files:
creditstatement.rpt
invoice.rpt
letter10.rpt
letter50.rpt
letter100.rpt
letter.rpt
lettercomments.rpt
lettercrop.rpt
lettersselect.rpt
statement.rpt
2. Copy the files to a backup drive or flash drive.
3. Install updated PCSpray.
4. Copy the backed up files to C:\PCSpray\Reports. It will ask if you want to replace the existing files. Select Yes.
